Re: DA 12-1863, IB Docket No. 12-340, RM-11683
Public Notices for LightSquared's License Modification Application and Petition

Dear Ms. Dortch,

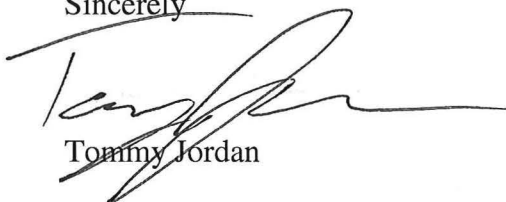

I would like to request that you consider LightSquared's application and recognize their efforts to build out a new, competitive mobile broadband network. I appreciate the opportunity to include my voice among those encouraging the development of the LightSquared network and access to competitive mobile broadband spectrum.

As a local small business owner located in Roanoke, Virginia, I understand the importance of having broadband spectrum able to meet the needs of rural business owners. My company, Tommy Jordan Lawn & Landscape, requires me to be on the road constantly. At the time same, I must be able to quickly respond to my clients and meet their needs. I have many clients that are located in more rural areas where reliable broadband service isn't always available. Lack of reliable service can often keep me out of touch with clients and can negatively affect my business. That's why I am excited to hear about LightSquared's proposed network expansion into rural America. The impact this network will have on businesses in rural areas will be positive, allowing them to reach a larger population and ensure quality service to their clients.

In addition to the impact on businesses, LightSquared's network expansion will stimulate wireless innovation and competition, which in turn will increase the quality of service and keep costs down for the communities they serve. By granting LightSquared's application, the Commission will help promote this type of innovation and ensure that underserved communities have the access they require.

Thank you for moving as expeditiously as possible with your review; I very much appreciate your time and consideration.

Sincerely

Tommy Jordan
